

PROJECTS | 2025

Drawing the future from space,
adding new colors to people and society.

Expanding the possibilities in spaces

with eyes on the times, and people in our hearts.

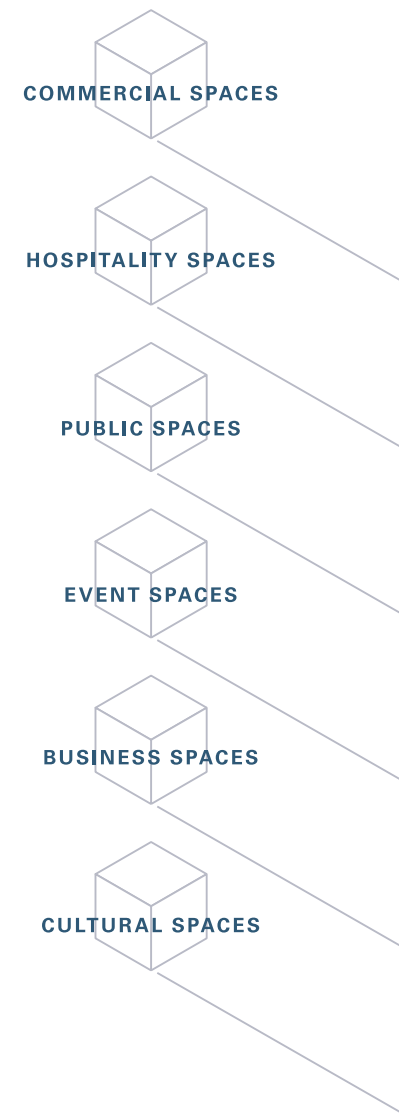

Here at Tanseisha,
our role is to turn any space into a place offering vivid and rich experiences,
for people to interact with other people, things and information.

As space creation professionals in a time when the meaning of “space” constantly evolves,
we work with creators utilizing cutting-edge technology in various fields
to develop new places that increase the value of space and promote communication
by accentuating the characteristics of both physical (real) and cyber (virtual) worlds.

In anticipation of evolving needs for increasingly diversified and sophisticated spaces
we will continue to pursue the excitement and satisfaction of
the people who gather in these spaces via the medium that is space,
with the success of our customers’ business in mind at all times.

● Six spatial fields
of Tanseisha

We offer a wide variety of support and expertise

We solve customers' problems with the power of space creation in more than 6,000 projects a year. By combining innovation with technology and experience cultivated in specialized fields, we create spaces that transcend business domains.

COMMERCIAL SPACES

Large commercial facilities, retail stores, restaurants, chain store expansion, regional brand facilities, entertainment facilities, etc.

HOSPITALITY SPACES

Hotel and bridal facilities, medical service facilities, etc.

PUBLIC SPACES

Stations, airports, service areas, schools, etc.

EVENT SPACES

Exhibition and sales promotion events, expositions, cultural events, virtual events, etc.

BUSINESS SPACES

Showrooms, offices, innovation centers, corporate museums, factory tour facilities, etc.

CULTURAL SPACES

Museums, archives, science museums, art galleries, environment / disaster prevention / child experience-learning facilities, culture and tourism hub facilities, eco-museums, etc.

COMMERCIAL SPACES

We propose plans for bustling and comfortable commercial spaces that support the creation of relationships between products, services and end users. In the chain store field, we support the development of multi-store projects by making use of our extensive track record working with pioneers in the industry. At entertainment facilities, we realize unique concepts thanks to our wide variety of production techniques developed to improve experience.
